Large natural avalanche near Hardscrabble Peak

Hardscrabble Peak Bridger Range 1/17/2020 Code HS-N-R3-D3-O Elevation 9000 Aspect E

Longitude

45.91510

-110.98100

Notes

Natural avalanche on 1/17 near Hardscrabble Peak in the Northern Bridgers.

From observation: "At some point between 12:00 and 15:00 a large natural <u>slide</u> occurred in 'October Bowl'. My partner and I saw no tracks in the area. We witnessed a large amount of snow being deposited on that <u>aspect</u> throughout the day. In the photos you can see the crown from 01/16 and the new crown up and to the right."
