Large natural on E side Woody Ridge, Cooke

Woody Ridge Cooke City 2/14/2020 Code SS-N-R1-D2-O Elevation 10200 Aspect E Latitude 44.97390 Longitude -109.92400 Notes

From an observation, " Climax slid quite large several days ago. We could get a good look at the crown because of the wind, but I'm guessing it was a wiwind slabhat stepped down."

"Climax" is the what the locals call the large east face on Woody Ridge above Hayden Creek.
