Co-ord: 45.04057N, -109.97997E

Sky Cover: CLR

Notes: Snowpit location was almost a due south, but also in a location that was partially shaded by some old growth whitebark pine trees.

Some surface hoar observed today in upper Sheep Creek, though not quite as abundant as in upper Pebble Creek the day before (about 1 km a flies to the west). Slightly more surface wind effect in upper Sheep Creek.
