

Natural Wind Slab - Overlook Mountain

Overlook Mountain

Northern Gallatin

12/20/2020

Code

SS-N

Aspect

W

Latitude

45.40500

Longitude

-110.94200

Notes

From email: "I heard and saw a natural avalanche across the basin on the west-facing slopes below Overlook Mountain, I also observed recent avalanche debris below "The G Spot" which is in a couloir below Overlook. Even though there isn't any recent snow, the snow that is there is getting actively blown around."

Number of slides

1
