Sheep Creek

Cooke City

12/29/2021

Code

N

Latitude

45.03440

Longitude

-109.98400

Notes

From BPG obs 12/31/21: "We did observe a crown at the back of the valley to the south (climber's left) of "Tea and Crumpets". Only looked about 50-75' wide but deep, exposing rocks/ground in places. Couldn't get a good photo with limited visibility."
