

Large whumpfs and collapses near Cooke

Wyoming Creek

Cooke City

2/9/2022

Code

Elevation

9242

Aspect Range

E-SE

Latitude

44.98990

Longitude

-109.96500

Notes

I was touring on the west side of Wyoming creek today. **Got some large whoomfs and collapses** on the Ridgeline and a poor test score of ectp11 q1 sp 22cm deep on on buried [surface hoar](#) on top of facets on an E/SE facing slope at 9242' hs-163cm, slope angle 26° The same layer was easily identifiable in hand shears throughout the day.
