Snow Pit Profile

Observer: Mark Staples

Stability on similar slopes: Very Good

Stability Test Notes:

Taylor Fk Wild Bndry

Fri Mar 04 11:00:00 MST 2011

Co-ord: 111.35878 W 44.98014 N

Air Temperature: C

Elevation (ft) 8873

Slope: 26

Sky Cover: sky < 2/8 covered

Precipitation:

Aspect: 238

S Madison, MT

Wind loading: no

Wind: Calm

Activities: Snowmobile tracks on slope.

Notes: Solid snowpack. A bit shallower than I would have expected, but totally stable. No facets, mainly density changes allowed CT to break Q2 in between hard wind slabs
