Stability Test Notes:

86: super cool!

Layer notes

33-34: Pro

0-13: varia

Notes: We found the SH here too. This is what I term a "scary Moderate" danger. I hate buried surface hoar. We skied the lower angled slopes to ski on the safe side. Dr. Birkeland did his very first turns on his carbon Megawatts from here. He was grinning ear to ear.
