

Snow Pit Profile

Observer: **Mark Staples**Stability on similar slopes: **Very Good**

Stability Test Notes:

Layer notes:

Henry, MT**Sat Dec 22 12:35:00 MST 2012**Air Temperature: **C****0-18: Prob**Elevation (ft) **8951**Co-ord: **44.73134 N 111.34364 W**

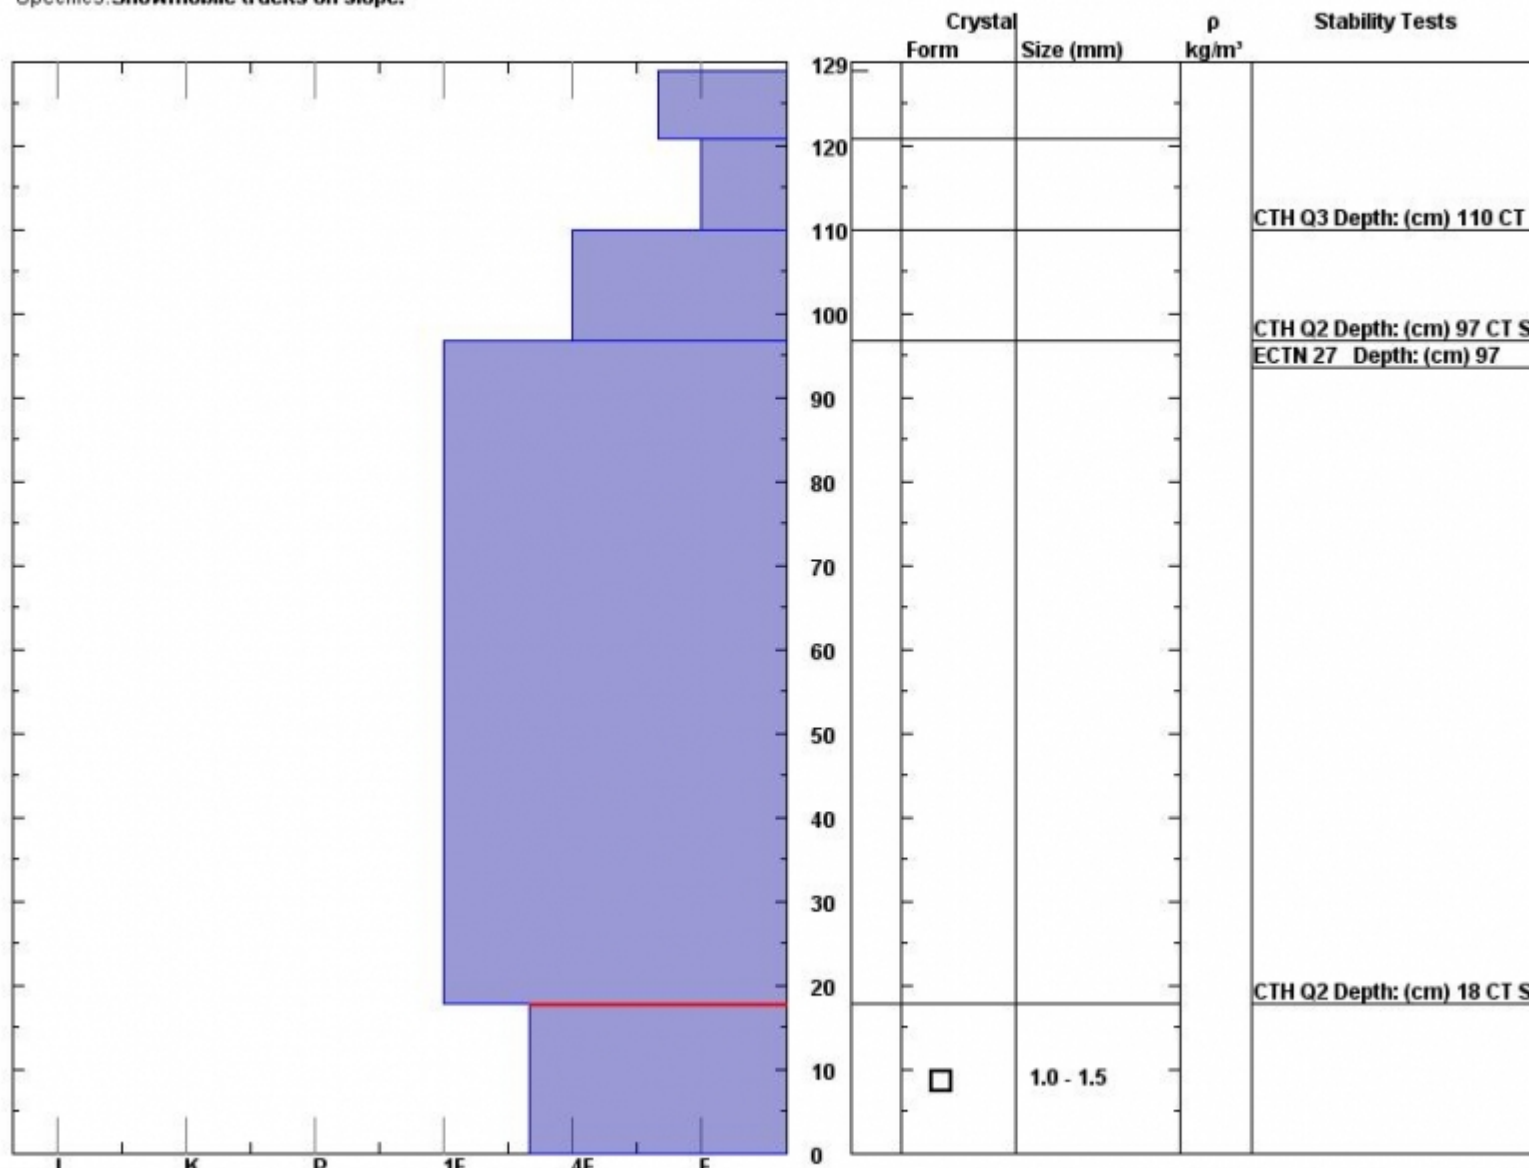

Sky Cover:

Aspect: **300**Slope: **15**

Precipitation:

Wind loading: **no**

Wind:

Specifics: **Snowmobile tracks on slope.**

Notes: Pit dug with Ace Powder Guides in upper Watkins Cr. near Lionhead. Strong snowpack. Avalanches nearby at ridgetops from 5 days prior indicating at 18cm are weaker on some slopes. These were steep, rocky slopes that received a good wind load on 12/17 or 12/18. I doubt similar slopes triggered from below.
