 Wind loading: **no**

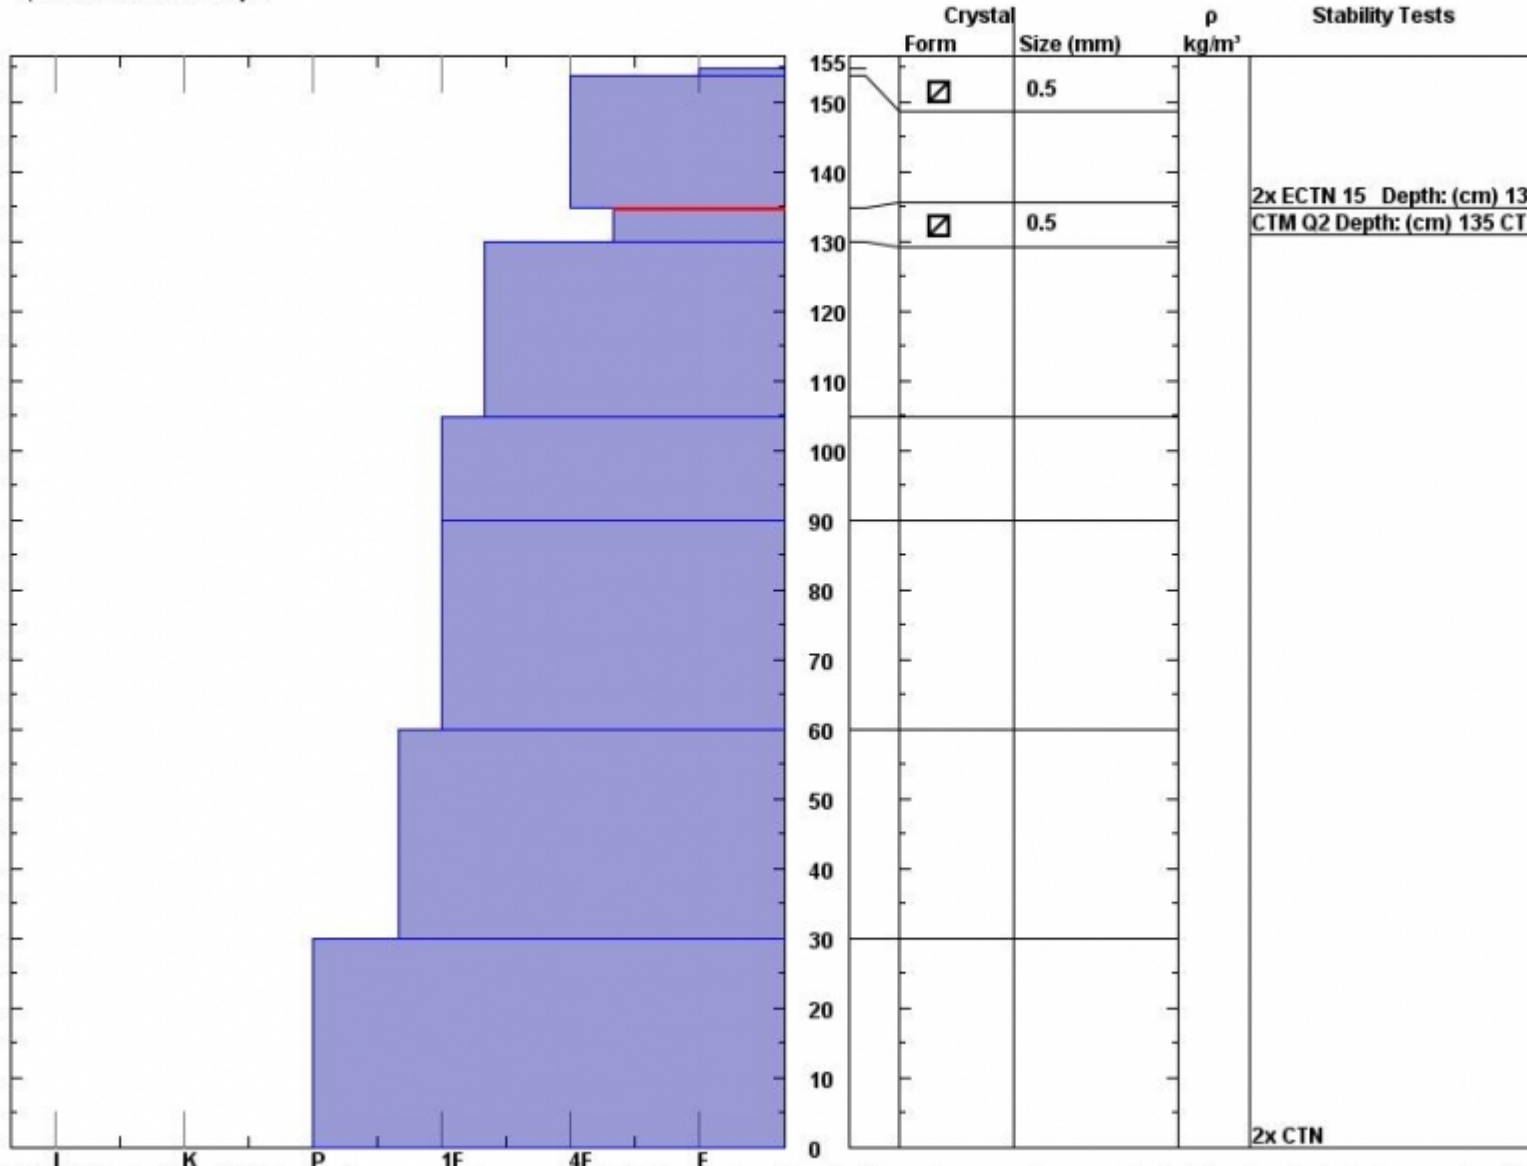

Stability on similar slopes: **Very Good**
Air Temperature: **C**
Sky Cover: **Clear**
Precipitation: **None**
Wind: **Calm**

HS155

Stability Test Notes:

Layer note

130-135: F

Notes: We dug this pit in the starting zone of the run we skied. The weakest layer in the pack was not very weak, the facets only broke in one of my turns in none of the two ECTs. Good stuff. NSF on surface, but no razor crust underneath.
