Snow Pit Profile

Observer: Mark Staples

Elephant Mtn N Gallatin, MT

Aspect:

Wed Jan 14 14:30:00 MST 2015

Elevation (ft) 9000

Slope: 34

Wind loading: no

Stability on similar slopes: Good

Layer note

Stability Test Notes:

0-35: Prob

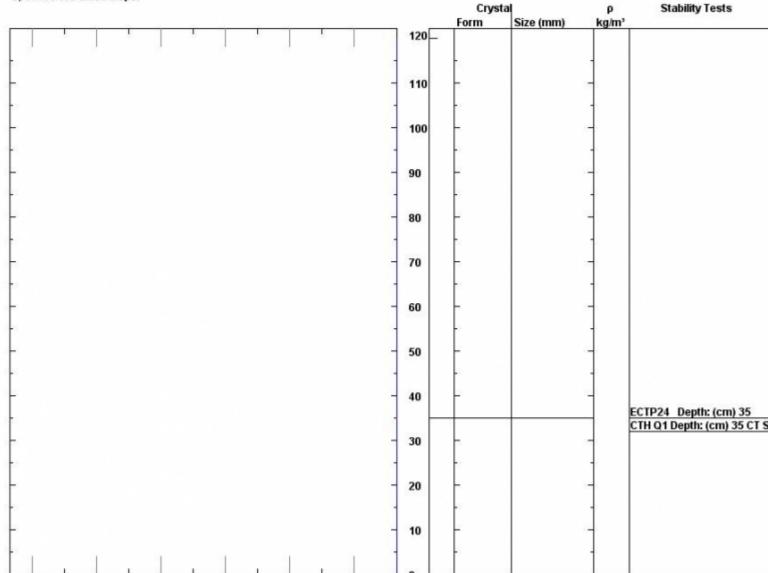

Co-ord: N W

Sky Cover: Precipitation:

Air Temperature: C

Wind:

50 Specifics: We skied slope.

I K P 1F 4F F O

Notes: Facets near the ground were not an issue on many other slopes. This aspect probably harbors the weakest snow near the ground. No avalanch breaking on the fx's at 35 cm.
