Slushman's tower 8 Bridger Range

Alex Marienthal Sun Dec 4 10:45 2016 (MST) Co-ord: 45.80182N, -110.92921W

Air Temperature: Sky Cover: 4/8 to 8/8 covered

Stability: Fair

HS75 Stability Test Notes 0: Failed, ECTP 36

Layer No

0-15: Prob

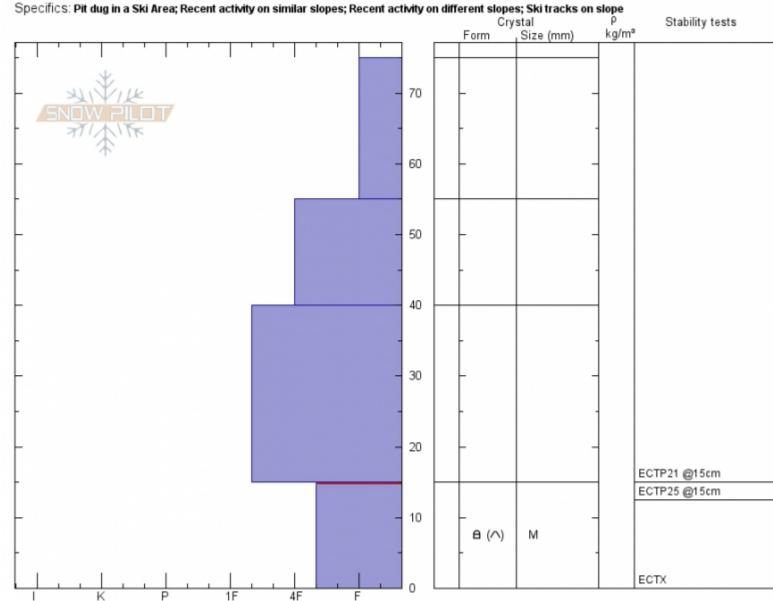

MT

Elevation: 8000 ft Aspect: 100°

Slope Angle: 31°

Precipitation: None Wind Loading: previous

Wind: SW Light Breeze

Hard to initiate propagation. We decided to avoid steeper, more complex terrain due to unstable results and recent avalanche activity. Good skiing.

Advisory Region Bridger Range Bridger Range, 2016-12-04
